PekaPeka

Innovative bird feeding platforms
Feeding birds anywhere!

PekaPeka platforms give you the ability to feed multiple species of birds from the same station.

Sugar water accommodates nectar feeders, while a hook on the underside of the platform allows the user to hang any desired feeder to target a range of species.

The ability to be used on a warratah gives users the freedom to place almost anywhere.

Key Features

The PekaPeka bird feeding platform is designed to make use of existing products to provide a safe and customisable feeding experience for you and your birds.

PekaPeka platforms provide the user with a predator resistant, easy to install and cost-effective base.

- o High quality bottle feeders imported from U.S.A
- o Injection moulding provided by JayTech Plastics in Mosgiel
- o Sold by Mitre10 Dunedin
